Multimedia Lectern

I - AM

Multimedia, Ergonomic, Stable, Elegant

Ideal for auditoriums or large conference rooms, **I-AM** is an indispensable communication tool. It fully meets the various needs of a high-quality professional presentation, whether in a corporate setting, educational environment, or any other event venue. Acting as an interface between the speaker and their audience, its carefully designed ergonomics and customisable aesthetics allow it to become an integral part of its environment.

Materials and Finishes :

Steel body, Powder Coating Paint with a light grain, colour: Carbon Black

Steel front panel, Powder Coating Paint paint with a light grain, 3 colours to choose from: Latte White, Anthracite Grey, Carbon Black

2mm oak veneer tabletop with solid edges, 3 colours to choose from: natural oak, wenge-stained oak, black-stained oak

Height adjustable

Thanks to a small, discreet control integrated into the main tablet, any speaker will feel confident once the lectern has been adjusted to their height.

Special features

- Space provided for the integration of third-party interfaces.
- Right/left sliding steel shelf.
- Glass holder, 60 mm diameter.

High-quality materials and finishes

Carefully selected materials, shapes (curved front shield) and dimensions (thickness of the main shelf for a good grip) contribute to an image of stability.

Ergonomics and specific features

Built-in LCD preview screen. Document holder for A4 format with brushed stainless steel paper stop. Integrated shock-absorbing bases for XLR microphones (not included).

WAVE INSIDE
